

Allergies: When the Immune System Backfires

Video Transcript

Goodbye

[Andreas J. Bircher] It is time for me to say goodbye. I really enjoyed this course. I want to congratulate you on what you have achieved during the last three weeks. As you may have realised, the immune system is complex, and the mechanisms of allergies are intricate. We understand many aspects today, since researchers before us were able to explain them. However, there are many questions we are not yet able to fully answer.

Thank you for your lively participation, your comments, and for choosing this course. I hope I could convey to you some of the aspects why I find this topic not only relevant, but also fascinating. See you another time, maybe even here in Basel.
