REF NO. ....

2nd January 1974.

The Chinese Embassy,  
Private Bag,  
Dar es Salaam.

Dear Sirs,

In July 1973, I came to your office inquiring about the famous Chinese 'ACUPUNCTURE' treatment for my partially paralyzed right leg after an accident while playing six years ago.

I then met Mr. Cheng, the Medical Tim Manager and also was checked by you physician Dr. Leo in Dar es Salaam and they referred me to your medical Tim in Tabora.

I took Acupuncture treatment in Tabora from Dr. Lai for a period of 3 months and there has been a lots of improvement. I can now lift my leg, walk without a stick and I can also drive a car.

During the treatment of three months, four times I went to Bukoba on leave and my family as well as the whole town was surprised at the quick recovery everytime I went there. They were all curious and asked me a lots of questions about this treatment.

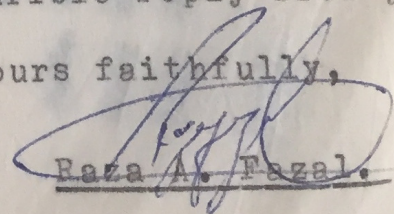

Dr Lai become so famous among my friends that we had, patience from Kigoma, two from Shinyanga and three from Bukoba. At least four more patience from Bukoba were coming to Tabora but Dr. Lai had to go to Mpanda for three weeks and hence I returned back to Bukoba.

When I returned at least 12 patience has contacted me and would like to take this treatment. I also wish to point out that in Bukoba we have many polio cases and once I have taken this treatment, many of our people will also take the same treatment without hesitation.

I am therefore requesting you to see if Dr Lai together with a Chinese medical Tim can be stationed in Bukoba. I am sure that town will appreciate very much the services of your Doctors.

Hoping to receive a favourable reply from you.

I remain yours faithfully,

  
Raza A. Fazal.
